## **DETAILED ACTION**

## Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10 and 26, drawn to method.

Group II, claim(s) 11-25, drawn to apparatus.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of the method, heating the liquid while stirring, does not appear in the apparatus. Additionally, the special technical features of the method, stirring at a second predetermined stirring speed to create foam, does not appear in the apparatus. The method and apparatus thus lack the same special technical feature and thus lack unity.
